It's Time to Run Your Mock Lottery

Test for success!

Prior to running your lottery, you should set up and run a mock lottery in your sandbox site. We recommend doing this at least one month in advance

of your lottery's official launch.

To help you configure, run, and review your mock lottery, we've put together a series of three articles that'll walk you through the process:

- **Step 1:** Review Settings and Configurations
- **Step 2:** Run a Mock Lottery in Sandbox
- **Step 3:** Review Your Mock Lottery Results

Click the linked article above for the topic you need — or read all three article, which we recommend!
