What's new?

New Application Filter: Waitlisted At All Choices

In the applications module, a new option of "Waitlisted At All Choices" has been added to the Lottery List quick filter.

When selected, this filter displays students whose applications were run through a lottery, but who were waitlisted at all of their choices. This filter allows you to quickly identify families that may need specific messaging about next steps or other program options.

The screenshot displays a filter interface with two main sections: "Filter by Status" and "Filter by Application".
