

See What's New in Enroll 2.7!

We heard your feedback (*keep it coming!*) and are excited to bring the latest improvements to **SchoolMint Enroll** with the 2.7 product release.

Check out a few of the highlights below, and scroll to the very end for the full release notes.

Change a Student's Registration School

In one easy step, your team can now move a student's registration from one school to another.

Enroll will notify the family and highlight on the Guardian Dashboard if additional form information is required for the new school, saving your team time and clicks!

Change Registration School ✕

 When changing the registration school, the following will happen:

- **The registration to Elm High School will be withdrawn.**
- The registration to the new school will be created.
- The status of the new registration will default to "In Processing".
- Updates may require you to fill out additional information. Please review form steps marked in red for any missing required fields.
- Workflow notifications with a custom trigger for fields on the registration form will still be sent to guardians.

Change Registration to:

Select School *

Notes/Reason *

Notify guardian(s) of registration change.

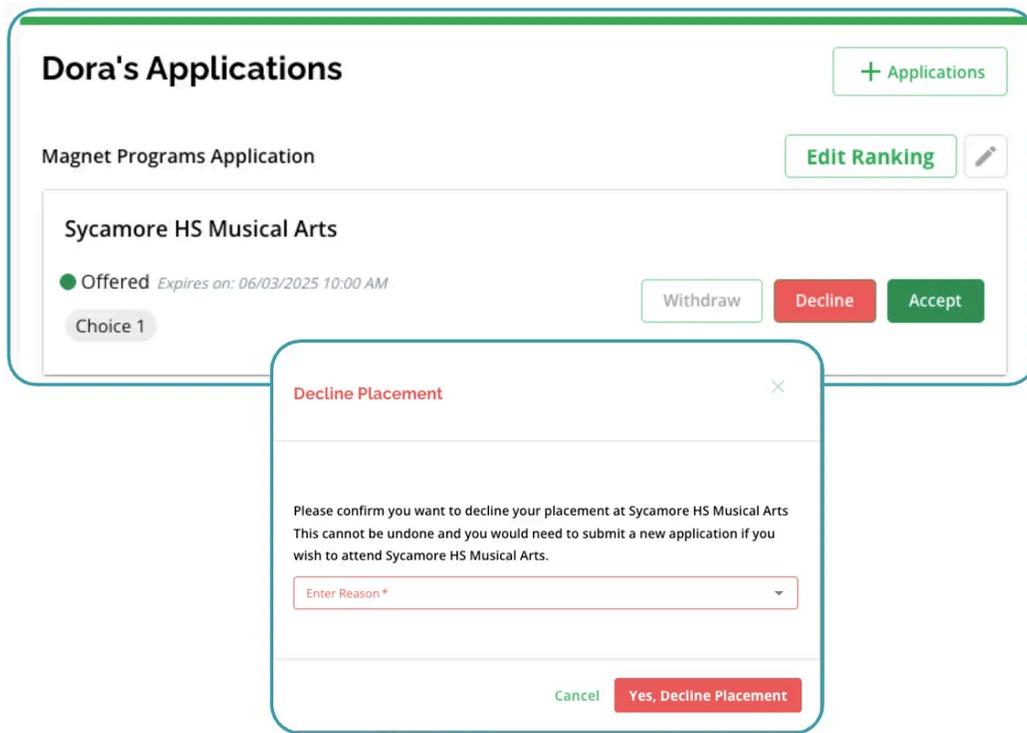

[Cancel](#) [Save New Registration](#)

[Learn How](#)

Require a Decline Reason

Understanding trends why families are declining offered placements is essential to shape an effective marketing and recruitment strategy.

You now have the option to require guardians to select a decline reason from a list configured to meet your reporting needs.

Enable Decline Reasons

More to Explore in Enroll 2.7!

Additional enhancements include:

- Require an Ineligible Reason
- New Settings Tab: Applications
- Display Platform Content for Lottery List Field
- Accessibility Tooltips on Guardian Sign In / Log In Screens
- Additional Fields in Annual Rollover Process
- Internal Security Setting
- Maintenance Fixes

Coming later this year!

Recruitment

Powered by **SchoolMint** Enroll

Coming later this year, SchoolMint Enroll's newest innovation, **Recruitment** — a powerful new module built for single-site schools. **Recruitment** will give you an integrated way to attract families, track interest, and follow every prospective family from first click to completed enrollment.

It also seamlessly connects with our [digital advertising service](#), so you'll see exactly which campaigns are working and where families are coming from.

Recruitment functionality that is available with the **SchoolMint Enroll 2.7** release includes:

- Interest Tracking via Leads Dashboard
- Conversion Funnel through Application and Registration
- Attribution to Marketing Campaigns
- CRM Functionality to Email and Text Interested Families

Note: A version for charter networks and school districts will be coming in early 2026.

Become an Enroll Expert: June Webinars

We hope you'll join us for our June webinars:

[June 4, 2025 at 2pm Eastern](#)

1. SIS Management on SchoolMint Enroll

This webinar is ideal for administrators exporting approved student registration data through Sync Service. Key topics:
